HEIDI KRAMER

KERRI SHERWOOD

Heidi Kramer

is a motivational speaker with 18 years of experience in community wellness. A breast cancer survivor, she is working on publishing her first book. Heidi's powerful message is one of hope and light.

Kerri Sherwood

a Yamaha recording artist (singer-songwriter, pianist, composer) has released 14 albums with six of them being original material. She performs in concert nationwide, is played on radio and has charted her latest vocal single at #13 on the adult contemporary radio chart.

Kerri and Heidi are real life women: wives, mothers, daughters of aging parents, siblings, friends...passionately balancing career and home.

They bring to the stage exactly what their audiences are living, exactly what they understand and connect to.

With this heartfelt connection and a mixture of music, song and stories interwoven together, Heidi and Kerri create a performance few people can forget or walk away from untouched.
